

Fire Hydrant System

Our Fire Hydrant Systems are designed to provide a reliable and immediate water supply during fire emergencies, ensuring rapid firefighting response for industrial, commercial, residential, and infrastructure projects.

We deliver complete hydrant solutions, including design, engineering, supply, installation, testing, commissioning, and maintenance in compliance with national and international fire safety standards.

Our Solutions

- Internal & External Hydrant Networks
- Landing Valves & Hose Reel Systems
- Underground & Overhead Piping
- Yard Hydrant Systems
- Hydrant Accessories & Valves
- Testing & Commissioning

Fire Pump Room

A reliable Fire Pump Room is the heart of every fire protection system. We design and install high-performance pump systems that ensure uninterrupted water pressure during emergency situations.

Every pump room is engineered to deliver dependable performance while meeting applicable fire safety codes and project requirements.

Our Solutions

- Electric Fire Pumps
- Diesel Engine Fire Pumps
- Jockey Pumps
- Pump Controllers & Control Panels
- Pump Room Piping & Accessories
- Testing, Commissioning & Annual Maintenance

Fire Alarm System

Our Fire Alarm Systems provide early fire detection and instant notification, enabling quick evacuation and minimizing risk to life and property.

We offer intelligent and conventional fire alarm solutions designed to meet the specific safety requirements of industrial facilities, commercial buildings, institutions, and residential developments.

Our Solutions

- Addressable Fire Alarm Systems
- Conventional Fire Alarm Systems
- Smoke, Heat & Multi-Sensor Detectors
- Manual Call Points & Sounders
- Voice Evacuation Systems
- System Integration, Testing & Maintenance

Fire Sprinkler System

Our Fire Sprinkler Systems provide automatic fire suppression by detecting heat and controlling fires at their earliest stage, significantly reducing damage and ensuring business continuity.

We design and install customized sprinkler systems for warehouses, manufacturing plants, commercial buildings, hotels, hospitals, educational institutions, and residential projects.

Our Solutions

- Wet Pipe Systems
- Dry Pipe Systems
- Pre-Action Systems
- Deluge Systems
- ESFR & Special Hazard Sprinklers
- Inspection, Testing & Maintenance

Fire Suppression System

We provide advanced Fire Suppression Systems for protecting critical assets where conventional water-based systems may not be suitable.

Our customized solutions safeguard data centers, electrical rooms, commercial kitchens, laboratories, manufacturing facilities, server rooms, and other high-value environments.

Our Solutions

- Clean Agent Systems
- CO₂ Fire Suppression Systems
- Inert Gas Systems
- Kitchen Hood Suppression Systems

- Foam Suppression Systems
- Special Hazard Fire Protection Solutions

Annual Maintenance Contract (AMC)

Our Annual Maintenance Contract (AMC) services ensure that fire protection systems remain fully operational, compliant, and ready to perform during emergencies.

Through scheduled inspections, preventive maintenance, testing, and prompt corrective actions, we help clients maintain maximum system reliability while meeting regulatory requirements.

AMC Services

- Preventive Maintenance
- Periodic Inspection & Testing
- System Performance Evaluation
- Breakdown Support
- Replacement of Faulty Components
- Compliance Documentation & Service Reports

Turnkey Engineering Projects

We provide comprehensive turnkey engineering solutions, managing every stage of the project from concept to completion. Our experienced team handles planning, design, procurement, installation, testing, commissioning, and project handover with a strong focus on quality, safety, and timely execution.

With a commitment to engineering excellence and customer satisfaction, we deliver reliable, cost-effective, and customized solutions for industrial, commercial, and infrastructure projects, ensuring every project is completed to the highest standards.

Global Export & Import

Electro Fire Engineering Pvt. Ltd. is expanding its global presence by offering reliable export and import solutions for engineering, construction, and fire protection materials.

With a strong supplier network and commitment to international quality standards, we facilitate seamless global sourcing and distribution while ensuring quality, timely delivery, and competitive pricing.

Products We Deal In

Fire Protection Materials

- Fire Hydrant Equipment
- Fire Sprinkler Systems
- Fire Alarm Systems
- Fire Suppression Systems
- Fire Pumps & Controllers
- Fire Extinguishers & Accessories
- Pipes, Valves & Fittings

Engineering Products

- Industrial Equipment
- Mechanical Components
- Electrical Materials
- Fabricated Products
- Industrial Valves & Piping Systems

Construction Materials

- Structural Steel
- Building Hardware
- Fasteners
- Industrial Pipes & Fittings
- Construction Equipment & Accessories

Why Choose Us

- Global Sourcing Network
- Quality-Assured Products
- Competitive Pricing
- Reliable Supply Chain
- Export Documentation Support
- Timely Worldwide Delivery
- Customer-Centric Service

We are committed to building long-term partnerships by delivering quality products and dependable international trade solutions to customers across the globe.
